

FULLY COLLABORATIVE MOBILE APP TO INSPECT AND TROUBLESHOOT IN THE FIELD

YOUR MACHINE JUST WENT DOWN

We are excited to introduce Accelerate Live remote video support.

Do not lose precious time in waiting for a Hudson-Sharp technician to come over.

Call Accelerate Live remote video support to get instant help quickly and efficiently.

WHAT IS IT?

Mobile app

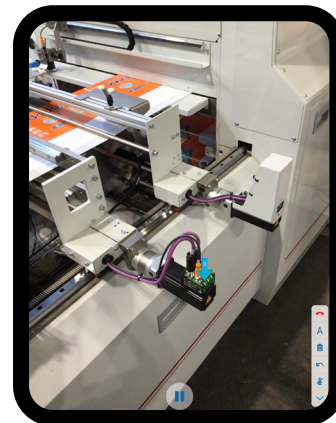

- Accelerate Live is a mobile app that creates a fully collaborative live environment to provide instant audio/video between your equipment and our Hudson-Sharp technicians and engineering experts

Bring in the virtual expert

- Rapid response to your equipment issues
- Inspect and troubleshoot before the expert is on-site
- Save money and time with faster diagnosis of the problem
- Reduce downtime and increase production time with faster resolutions

Hudson-Sharp Accelerate Live Kit

Kit Includes	<ul style="list-style-type: none"> - Hudson-Sharp provided tablet - Industrial case - Noise-canceling bluetooth headphones - Connection instructions
App Features	App allows you to share live video and talk in real-time
	Augmented reality (AR) environment allows both participants to draw in relative 3D space
Developed to connect in industrial facilities with low-bandwidth Wi-Fi
