

HUDSON-SHARP

High performance with enhanced features

5-series Wicket

The 5-series High Speed Servo Wicket from Hudson-Sharp is a high performance Wicket designed to combine reliability and versatility. This innovative machine can cycle over 450 cpm and offers fast changeovers, low scrap, and consistent bag quality for high speed automatic packaging lines. It is suited to convert a wide range of plastics to suit your market needs, due to proven design backed up by years of experience and worldwide machine base.

5-series Wicketers include:

- Servo driven B&R technology
- Color touch screen control
- Reel lift unwind with integrated webguide (edge, center or line guide)
- Shaft / shaftless
- Center / surface driven
- Width 1600 & 2000mm
- Diameter up to 1000mm @ max 1000kg
- Folding board with optional gusset former
- Machine width 750 & 1060mm
- Infeed rails length 1800 to 5400mm
- Draw lengths: 390 – 510 – 620mm
- Wicket one-step conveyor with 4 to 7 offloading stations (depending on draw lengths)

Major Options:

- Sideweld seal head with specific radius suited for different materials
- Servo or pneumatic wicket punch
- Various servo driven attachments (pre sealer, square & round bottom, easy dispensing, ...)
- Various features to suit your specific needs such as:
 - Longitudinal contact sealers
 - Folders
 - Additional tape inserters
 - Hot melt applicators
 - Automatic Seal bar cleaner
- Menu controlled “bag selection” to store all production parameters and bag specifications
- Auto correction and auto positioning of attachments
- WASP (Wicket Automation Stacking Process) for semi-automatic offloading stack of bags
- Robotic Automation

Markets Served

Hudson-Sharp has developed a wide range of features based on its 5-series Wicket platform to suit your Market needs and has been acknowledged as a premium player thanks to its continuous development and support.

FOOD:

- Bread Bags
- Chicken, Salmon Bags
- Frozen
- Produce

Dedicated Features:

- Servo driven Square and Round Bottom Sealer
- Zipper Sealer
- Multiple Hole Punch banks
