PCMC launches fully modular ION digital conversion system

New flexible inkjet printing solution provides high-speed superior print quality and a flexible platform

GREEN BAY, Wis. — Feb. 25, 2021 — Paper Converting Machine Company (PCMC), part of Barry-Wehmiller, has announced the launch of its [ION digital conversion system](#).

This new flexible inkjet printing solution provides superior print quality for many platforms, including labels, folding cartons, flexible packaging and other specialty printing markets. With industry-leading 1600 by 1585 dpi native resolution, the system can print in various modes at speeds up to 668 feet per minute.

The ION digital conversion system is powered by [Memjet's DuraLink® technology](#). DuraLink combines long-life printheads, pigment ink and flexible modules that can be configured from 8.5-inch print widths up to 60 inches. DuraLink's aqueous pigmented ink-set offers a durable, water and light-fast solution for a variety of digital print needs. With these features, PCMC can quickly and easily develop solutions for high-volume commercial, packaging and industrial printing markets.

The ION is a fully modular system and is available as a mono-color print-bar and full-color printing platform with expanded gamut printing.

"We are excited to add ION digital to our product portfolio," said Rodney Pennings, PCMC's Printing, Coating and Laminating Sales Director. "The combination of PCMC's vast experience in flexographic printing with Memjet's breakthrough inkjet technology results in a powerful solution for our customers in a variety of print and packaging markets."

ABOUT PAPER CONVERTING MACHINE COMPANY (PCMC)

Paper Converting Machine Company (PCMC) specializes in the design and manufacture of high-performance converting machinery for the tissue, nonwovens, package-printing and bag-converting industries worldwide. Our comprehensive product offerings include rewinding, laminating, printing, embossing, perforating and packaging equipment for tissue and towels; folding and converting machines; and a complete range of flexographic printing presses and laser anilox cleaners, serving the flexible-packaging, prime-label and carton-converting industries. For more about PCMC, which is part of Barry-Wehmiller, go to pcmc.com.

ABOUT BARRY-WEHMILLER

Barry-Wehmiller is a diversified global supplier of engineering consulting and manufacturing technology for the packaging, corrugating, sheeting and paper-converting industries. By blending people-centric leadership with disciplined operational strategies and purpose-driven growth, Barry-Wehmiller has become a \$3 billion organization with nearly 12,000 team members united by a common belief: to use the power of business to build a better world. CEO Bob Chapman shares the story of the company's transformation in his book, [Everybody Matters: The Extraordinary Power of Caring for Your People Like Family](#).
