

PCMC PSC

PRESS SOLUTION CENTER

The Press Solution Center is an in-house facility that supports PCMC's press checkouts and testing. Customers can request specific tooling and supplies to be used for print trials and machine checkouts and learn what options work best for their situation. The room is also designed to be an information source as to what pre-press products are available, how they work, and their benefits.

The supplies/capabilities of the center are:

- Plate sleeves and tapes
- Anilox sleeves
- Plate mounting
- Color proofing
- Plate and print inspection
- Sleeve Cleaning
